office picnic...**

**why let e-mail
worries take up your
precious time?**

PostMaster
ENTERPRISE

no worries.

Would you like to keep confidential emails confidential and stop information leakage due to misuse of emails? Would you like to react to business developments instantly by accessing emails even when away from the workplace? Would you like to block malicious and objectionable emails outside your network? Would you like to automatically inform people that you will attend to their emails after you get back, when you are away travelling/on leave? Would you like to improve brand value and have consistency in domain names for all official emails, with one common company ID? Would you like to ensure that your employees use the Internet for official purposes only? Would you like to have technical help on demand for resolving emailing issues? Yes to any of the above? You may want to test-drive PostMaster Enterprise.

PostMaster Enterprise - for Effective Email Management

PostMaster Enterprise is designed to make emails work for you, instead of the other way around. This versatile, robust and scalable solution addresses all the emailing requirements of mid-sized organizations and can -

- Support up to 1000 users.
- Ensure that malicious or unproductive emails do not clog the system.
- End/Block information leakage due to misuse/abuse of emails.
- Keep you connected even when you are on the move; no more delayed replies, view emails as SMS on your handhelds - you will always be able to view/act on important emails.
- Send emails from any domain and at the same time, maintain consistency in domain name for all your emails.
- Automatically inform people that you are unavailable if they

email you when you are away.

- Provide technical assistance on demand via a phone call or on the Web.

Modules For PostMaster Enterprise

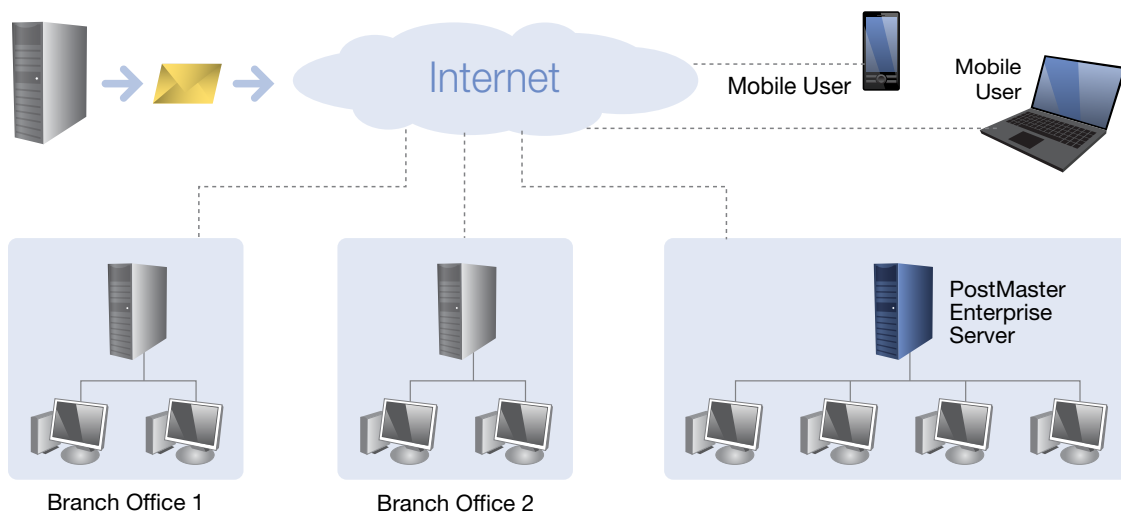

PostMaster Enterprise has add-on modules to further enhance the productivity of your organization's email and Internet usage. These are tightly integrated with PostMaster Enterprise, giving you a single interface to manage all the aspects of your business email. (see chart)

PostMaster Enterprise - A system that can be tweaked to suit your business!!!

- Configure the domain, mail and connectivity settings.
- Identify administrators and assign user privileges to employees.
- Set the global & user level rules and restrictions.

- Configure the modules as needed.
- And PostMaster Enterprise is ready to manage your emails!

PostMaster Enterprise and You

The essence of PostMaster Enterprise is the ease with which it can be moulded to your business requirements. Use the well-designed features - numbering over 250 - that cover everything you will need to manage email communications. With PostMaster Enterprise installed, you benefit from:

A complete communication solution: Provide company email IDs to all employees and enjoy error-free email distribution.

Customizability: Set rules and restrictions, at user level and global levels; assign privileges to users.

Improved productivity: Control and analyze Internet access and usage; reduce unwanted email traffic; optimize bandwidth usage; access emails even on the move; manage schedules;

and plan collaborative tasks.

Secure connectivity: Have virus-free emails, attachments & Internet downloads and a spam-free inbox; curb information leakage via emails.

Automated email management: Automatic acknowledgement of incoming emails, auto response and easy diagnosis & troubleshooting available; standardize and regulate work in non core areas with forms.

A centralized archive: Easily archive and retrieve business information, create a powerful & permanent backup with the facility to reconstruct the entire mailbox; the intelligent auto archive of emails after a specified number of days saves on space when an email is addressed to a group. All this reduces the storage burden on the mail server.

Time and money saved: Reduce multiple Internet connections in use to a SINGLE connection of any kind, even

dial-up, and get speedy distribution of emails.

Help on demand: In the unlikely event of product issues, help is always just a call away; also available are other modes of help - email, online helpdesk and 50+ channel partners to assist with your queries, apart from our pan-Indian presence.

Designed to deliver Peace of Mind!
