ENTERPRISE

1   Defects Fixed

1.1   Defect Fixes

♦   Fixed the issue of folder name not changing automatically in RoboRule when the name of corresponding folder was changed.

♦   Fixed the issue of limited number of URLs covered under blocked category. Now an exhaustive list of URLs is defined in **Proxy DefFiles.**

♦   Fixed the issue of shared files or folders on FTP not being deleted or renamed using Delete or Rename options respectively.

♦   Fixed the unavailability of option to choose local mail send size for defining rules in Rule Control.

♦   Fixed the issue of files not getting uploaded on a HTTPS site through **PME Proxy**

♦   Fixed the issue of HTTPS site failing to load or loading slowly through **PME Proxy**.

♦   Fixed the issue of the slow download speeds when downloading from an HTTPS site through **PME Proxy** using Internet Explorer.

♦   Fixed the issue of the emails not being sent to an email address containing single quote for example, john.d'oe@gmail.com.

♦   Fixed the issue of change in email formatting from Text to HTML, when using **WebMail** to open an email saved in Draft folder. Now users will get an alert message notifying this change in formatting.

♦   Fixed the limitation on number of permissible days in log rotation. It is now possible to configure log rotation for 30 days instead of 9 days.
